Cultivation and agronomic skills

This very fertile variety must be pruned short.

Clonal selection in France

The only certified Aramon blanc clone carries the number 1279. A conservatory of more than 50 clones was planted in the French department of Aude between 2010 and 2014.

Phenology

Bud burst: 1 day after Chasselas.

Grape maturity: late-season, 4 weeks and a half after Chasselas.

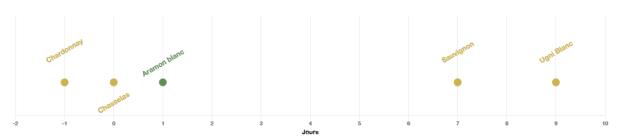

Technological potential

The bunches and berries are very large. Aramon blanc produces flat wines, without finesse.

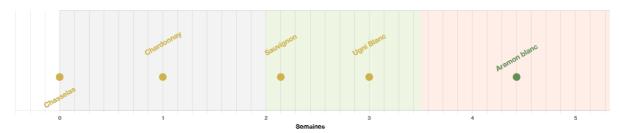

Susceptibility to Diseases and Pests

Aramon blanc is not too sensitive to grey rot.
