**Technological potential** 

bunches).

The bunches are medium in size and compact, while

the berries are very small to small. Arrouya produces

common wines, rather acidic, not very colored but

astringent with sometimes a little bit of bitterness.

Arrouya is a little sensitive to grey rot (compact

Susceptibility to Diseases and Pests

### Cultivation and agronomic skills

Arrouya has good vigor, not very fertile when pruned short, but becomes fairly productive when pruned long. Due to its late maturing, it must be planted in hot climate.

## **Clonal selection in France**

The only certified Arrouya clone carries the number 1112.

#### Phenology

Bud burst: 8 days after Chasselas.

Grape maturity: late-season, 4 weeks and a half to 5 weeks after Chasselas.
