Wine grape variety.

Origin

Fiano is originally from Italy, probabement from the area of Campania.

Use

Wine grape variety.

Name of the variety in France

Fiano

Synonymy

There is no officially recognized synonym in France nor in the other countries of the European Union, for this variety.

Regulatory data

In France, Fiano is officially listed in the "Catalogue of vine varieties" since 2018 on the A list and classified. This variety is also listed in the catalogues of other Member States of the European Union: Bulgaria, Italy and Malta.

Description elements

The identification is based on:

- the white tip of the young shoot, with a piping distribution of anthocyanin coloration, with a high density of prostrate hairs,
- the green young leaves with a high density of prostrate hairs,
- the shoots with sometimes red-striped internodes,
- the circular adult leaves, with three, five or sometimes seven revolute lobes, a slightly open lyre or V-shaped petiole sinus, mucronate teeth, medium compared to their width at the base with straight or convex sides, no anthocyanin coloration of veins, a finely blistered, flat or twisted leaf blade, folded near the petiole sinus, and on the lower side of the leaves, a low to medium density of erect and prostrate hairs,
- the ellipsoid berries.

Cultivation and agronomic skills

Fiano is a vigorous variety with a semi-erect bearing. It is not very fertile, but its production is regular. It is best to prune it long. This variety is adapted to hot and dry climate, and grows well in not very fertile soils. Fiano is sensitive to millerandage in case of rainy springs.

Susceptibility to Diseases and Pests

Fiano is sensitive to powdery mildew, especially during flowering. It is however less susceptible to downy mildew.

Clonal selection in France

The only certified Fiano clone carries the number 1315.

Phenology

Bud burst: 2 days before Chasselas.
Grape maturity: mid-season, 3 weeks and a half after Chasselas.

Technological potential

Fiano's bunches are small to medium and rather compact. The berries are medium in size, simple-flavored, with a lot of bloom, a thin skin and a juicy pulp. Fiano produces round, pale yellow wines, with honey, flowers, hazelnut and spices aromas, and sometimes a slight bitterness on the finish. These wines are suited to bottle ageing.
