Allele 2	143	225	239	182	188	260	254	257	251

Cultivation and agronomic skills

The high and regular fertility of this variety allows it to be pruned short.

Clonal selection in France

The only certified Carignan blanc clone carries the number 1256.

Phenology

Bud burst: 10 days after Chasselas.

Grape maturity: late-season, 4 weeks and a half after Chasselas.

Technological potential

The bunches are large and the berries are medium in size. The wines produced have a rather high alcoholic degree and are relatively neutral.

Susceptibility to Diseases and Pests

As Carignan, this variety is particularly susceptible to powdery mildew.
