Allele 1	131	225	239	182	194	252	240	216	239
Allele 2	141	234	247	186	204	260	254	267	239

### Cultivation and agronomic skills

Chasselas cioutat has significantly less vigor than Chasselas. It is a little sensitive to millerandage.

### Clonal selection in France

There is no certified clone for this variety yet.

### Phenology

Bud burst: same as Chasselas.  
Grape maturity: early-season, same as Chasselas.

### Technological potential

The bunches and berries are medium in size with a thick skin.

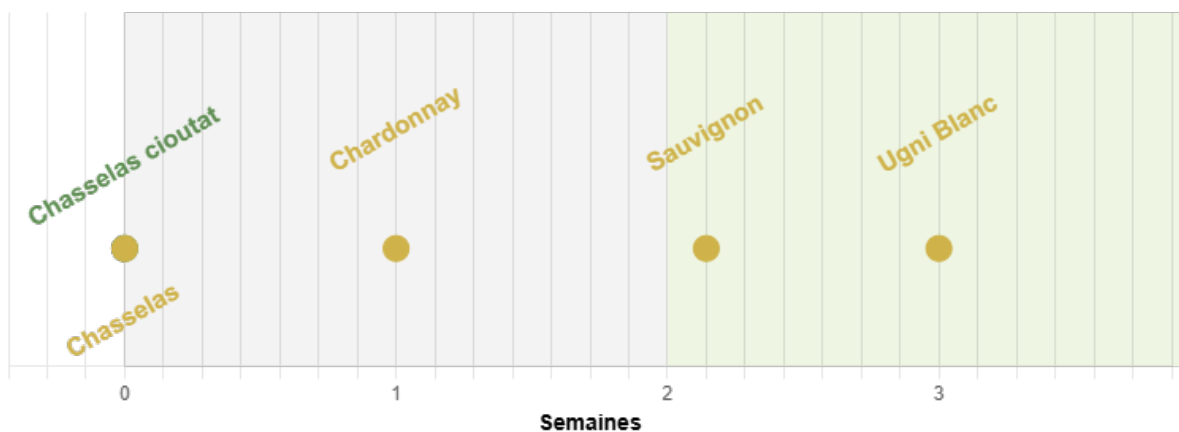

### Susceptibility to Diseases and Pests

This variety's behavior towards diseases is the same as that of Chasselas.

### Debourrement

## Maturité
